An out-of-this-world, fast-paced adventure featuring three super-powered, diapered orphans who battle the many evil menaces lurking throughout the universe using turbo fart missiles and projectile vomiting. It's sick, it's twisted, it's MEGACOOOL. A MEGA ratings grabber!!!

Every episode will follow 3 or 4 separate stories that show our kids learning life's lessons the hard way. As they each stumble through their day, struggling with their problems, they occasionally meet in the cafeteria at their special table to commiserate. Sometimes they may even try to help each other, but more often they're just too wrapped up in their own schemes and dilemmas.
