French

FORMAT:
HD

YEAR:
1998

Our stories reveal the daily life of Santa and his team: at work in the factory, at home, and during their travels when they visit incognito the children before the fateful night... To always be the best and never disappoint the kids, Santa must work miracles. And not always in his lab! His elves must travel the earth in search of new toys, new ideas. Adventure takes place in the four corners of the world... Finally, one must proceed with the investigations: were the children naughty or nice? Santa and his elves play detective and closely examine the questionable cases. Santa's popularity feeds the jealousy of Guzzle Beard, our heroes' grumpy neighbour, who can't stand the joyous activity taking place next door. He tries his best to sabotage Santa's plans, putting at risk the success of Christmas night.
